FOR IMMEDIATE RELEASE

Renal Center of Keyser brings quality care, more convenient location to West Virginia

Nov. 7, 2011 – **Renal Ventures Management, LLC** is pleased to announce the opening of a state-of-the art dialysis clinic in Keyser, W.Va.

The **Renal Center of Keyser** opened its doors Oct. 10 for patient care with 12 hemodialysis stations, an isolation station and a home training clinic. The clinic also features a café for the exclusive use of patients, WiFi and a contemporary interior design. In addition to a full-time staff of RNs and LPNs, the clinic provides on-site support of a social worker, dietician and biomedical technician.

The location is a joint venture between Renal Ventures Management LLC and **Mountaineer Kidney Associates**. The clinic's Medical Director will be **Dr. Rebecca Schmidt**, a nephrology specialist; **Dr. Bethany Pellegrino** also will work at the clinic.

"It's important to have a partner who supports high quality care," said Dr. Schmidt. "So we're delighted to be working with Renal Ventures."

The opening of the facility at 1080 New Creek Highway in Keyser, the second joint venture for Renal Ventures in West Virginia, offers added convenience for area residents because patients will no longer need to drive north to Maryland for treatment.

"We're looking forward to our joint venture in West Virginia because of the high quality of the doctors we are working with there and because we think it offers the community an added service that didn't exist there previously, said Larry Chatfield, CEO of Renal Ventures Management, LLC.
